1. That the proposed special use will not be unreasonably detrimental to the value of other property in the neighborhood in which it is to be located or the public health, safety, morals, comfort or general welfare at large. **Considering the five-year limitation on the Special Use Permit and the current state of the economy as far as construction, the proposed special use will not be unreasonably detrimental to the value of other property in the neighborhood in which it is to be located or the public health, safety, morals, comfort or general welfare at large due to the low intensity of the proposed use, the proposed special use is completely surrounded by agricultural uses and is well-buffered from residential uses, and will be screened from sight. That the location and size of the special use, the nature and intensity of the operation involved in or conducted in connection with it, and the location of the site with respect to streets giving access to it are such that the special use will not dominate the immediate neighborhood so as to prevent development and use of neighboring property in accordance with the applicable zoning district regulations. In determining whether the special use will so dominate the immediate neighborhood, consideration shall be given to:

    a. The location, nature and height of building, structures, walls and fences on the site; and,

    b. The nature and extent of proposed landscaping and screening on the proposed site.

The location and size of the special use, the nature and intensity of the operation involved in or conducted in connection with it, and the location of the site with respect to streets giving access to it are such that the special use will not dominate the immediate neighborhood so as to prevent development and use of neighboring property in accordance with the AG-1 zoning district regulations. The proposed special use is surrounded by crop land, will be screened with a solid wood fence six feet in height, and will provide a service to the area. STANDARD MET.

3. That off-street parking and loading areas will be provided in accordance with the standards set forth in these regulations. **The site is large enough that adequate off-street parking and loading areas can be provided. STANDARD MET.**

4. That adequate utilities, ingress/egress to the site, access roads, drainage and other such necessary facilities have been or will be provided. **Adequate utilities, ingress/egress to the site, access roads, drainage and other such necessary facilities have been or will be provided. STANDARD MET.**

6. That the proposed special use complies with all provisions of the applicable district regulations. **The proposed special use appears to comply with all provisions of the AG-1 district regulations. STANDARD MET.**

RECOMMENDATION: After considering all the evidence and testimony presented, this Board finds that the application meets all the standards as found in Section 9.08(C) of the *Ogle County Amendatory Zoning Ordinance.*

Said fence/screening shall be installed within ninety (90) days of the approval of this Special Use Permit.
2. There shall be no outside storage and/or accumulation of junk (as defined by the *Ogle County Amendatory Zoning Ordinance*), waste, inoperable and/or unlicenced motor vehicles, etc. on the site.
