Majority not present – meeting minutes not voted on

- **New Membership/New Subscribers:**
  We have one new month-long subscriber to the Beacon Website and we've kept all of our existing annual subscribers.

- **Project Status:**

1) The 2012 Plat book is nearing completion. We are waiting for the remaining ads to come in.
2) The iFiber project is trying to determine the best way to cross the Rock River.
3) The 2' Contours are too large to use the entire county at one time so we are creating blocks before making them available to the Partnership.

4) We will begin the process of creating the RFP (request for proposal) for next year's aerial flight. Rather than fly the entire county, we are considering the option of only flying the areas with significant change.

   North of Polo – Bocker Grain and the sewage treatment project.
   Byron – school construction
   Route 2 between Oregon and Byron
   Creston - subdivision
   Rochelle – overpass, King's Crossing.
   Davis Junction
   Mt. Morris – sewage treatment plant

   If you would like other areas considered, please let us know. We need to have the preliminary RFP done by June.

5) GIS now has a laminator (24" wide). Keep that in mind for future projects.
