COUNTY OF OGLE )

ORDINANCE NO. 2016-0101

AN ORDINANCE APPROVING A SPECIAL USE PERMIT ON PROPERTY  
LOCATED AT 1509 E. TOWNLINE ROAD IN ROCKVALE TOWNSHIP

---

WHEREAS, Byron-Oregon Sportsman & Conservation Club, Inc. has filed a petition for a Special Use Permit in the AG-1 Agricultural District (Petition No. 2-15SU) to allow a shooting range on property located at 1509 E. Townline Road in Rockvale Township and legally described as shown in Exhibit “A” attached hereto; and

WHEREAS, following due and proper notice by publication in the Ogle County Life at least fifteen (15) days prior thereto, and by mailing notice to all owners of property abutting the subject property at least fifteen (15) days prior thereto, the Ogle County Zoning Board of Appeals conducted a public hearing on September 24, 2015, at which the petitioner presented evidence, testimony, and exhibits in support of the requested Special Use Permit, and eight (8) member(s) of the public spoke in opposition to the petition; and

WHEREAS, the Zoning Board of Appeals, having considered the evidence, testimony and exhibits presented has made its findings of fact and recommended that the requested Special Use Permit be granted as set forth in the *Findings of Fact and Recommendation of the Ogle County Zoning Board of Appeals* dated September 24, 2015, a copy of which is appended hereto as Exhibit “B”; and

WHEREAS, the Planning & Zoning Committee of the Ogle County Board has reviewed the testimony and exhibits presented at the public hearing and has considered the findings of fact and recommendation of the Zoning Board of Appeals, and has forwarded a recommendation to the Ogle County Board that the requested Special Use Permit be granted subject to twenty-one conditions; and

WHEREAS, the Ogle County Board has considered the findings of fact and recommendation of the Zoning Board of Appeals and the recommendation of the Planning & Zoning Committee, and has determined that granting the Special Use Permit in the AG-1 Agricultural District (Petition No. 2-15SU) to allow a shooting range would be consistent with the requirements established by Section 16-9-8C of the *Ogle County Amendatory Zoning Ordinance*;

NOW, THEREFORE, BE IT ORDAINED BY THE COUNTY BOARD OF OGLE COUNTY, ILLINOIS, as follows:

SECTION ONE: The report of the Ogle County Zoning Board of Appeals, Exhibit “B” attached hereto, is hereby accepted and the findings set forth therein are hereby adopted as the findings of fact and conclusions of the Ogle County Board.

SECTION TWO: Based on the findings of fact set forth above, the petition of Byron-Oregon Sportsman & Conservation Club, Inc. for a Special Use Permit in the AG-1 Agricultural District (Petition No. 2-15SU) to allow a shooting range on property located at 1509 E. Townline Road in Rockvale Township and legally described as shown in Exhibit “A” attached hereto, is hereby approved subject to the following conditions:

1. All proposals and representations made by the applicant and/or their representative shall be conditions of the Special Use Permit.

2. As contained herein, the following words and terms shall have the respective meanings ascribed to them:

**Bullet:** A single projectile fired from a firearm.

**Firearm(s):** A term used to describe any gun, usually small, from which a bullet is propelled by means of hot gasses generated by burning powder (usually smokeless or black powder).

**Firing line:** A line parallel to the targets from where firearms are discharged.

**Firing position (point):** An area directly behind the firing line having a specified width and depth that is occupied by a shooter, his or her equipment and, if appropriate, an instructor or coach.

**Pistol:** A firearm capable of being held, aimed and fired with one hand. Also known as a handgun.

**Rifle:** A modern firearm designed to be fired from the shoulder. Its main characteristic is a rifled (grooved) barrel that imparts a spin to a single projectile as it travels through the bore. Some rifles designed for military or law enforcement use may have a pistol grip stock instead of a shoulder stock. For purposes herein, "rifles" shall also include black powder and other muzzle loading firearms, some of which may have rifled barrels.

**Safety fan:** The safety fan of a shooting range consists of three parts: the direct fire zone, the safety zone, and the ricochet zone. The direct fire zone is that area into which all shots are fired during the normal course of shooting. This zone includes all directions and angles of fire used on a shooting range while shooting at a specific target, either stationary or moving, from a specific firing point. The length of the direct fire zone extends to the maximum range of the ammunition and firearm used on the firing range, but can be shortened by physical barriers or other devices which reduce the maximum distance of a bullet's trajectory. The safety zone extends 10 degrees to the left and right of the direct fire zone and protects against errant bullets caused by cross fire or accidental discharge of a firearm. The ricochet zone is that area 45 degrees to the left and right of the firing line, and extended a certain distance dependent on the type of firearm and ammunition allowed on the range (i.e., 85 yards for air guns, and up to 1,200 yards for high-powered rifles). The line is then extended parallel to each side of the safety zone downrange to the intersection of a line extended from the terminus of the direct fire zone through the outer corner of the safety zone.

**Shooting Range(s):** An area designed and improved to encompass shooting stations or firing lines, target areas, berms and baffles, and other related components.

**Shooting Range Facility:** A facility including individual Shooting Ranges, safety fans, Structures, parking area(s), and other associated improvements, designed for the purpose of providing a place for the discharge of various types of Firearms.

**Shotgun:** A firearm designed to be fired from the shoulder with a smoothbore barrel that fires shot shells possessing a varying number of round pellets. Some barrels are designed to be used with rifled slugs, most generally having smoothbores, but in some cases may be rifled. Law enforcement and military shotguns may have a pistol grip stock instead of a shoulder stock.

**Structure(s):** A walled and roofed building that is principally above ground or any other permanent, manmade facilities.

**Surface Danger Zone:** Any area that may reasonably expect projectile impact resulting from direct fire, including misdirected and accidental discharges, and ricochets from any Firearm, which takes into consideration all mitigation efforts as submitted by the applicant and determined by a qualified licensed design professional with experience in outdoor shooting range planning and design.

Motion defeated - 11 - 11

3. The shooting range facility shall be designed by a qualified licensed design professional (engineer, architect, etc.) with experience in outdoor shooting range planning and design. The shooting range shall be designed in accordance with the most current edition of the Range Source Book (published by the National Rifle Association) or other industry-accepted shooting range design criteria as deemed acceptable by the Ogle County Planning & Zoning Administrator, provided alternative design criteria are at least as or more restrictive than the Range Source Book. The shooting range facility shall be designed to ensure that all projectiles are contained within the vertical projection of the shooting range (range containment structure and shooting range building).
4. All applicable local, state and/or federal laws, ordinance and requirements shall be met in the design, construction and operation of the shooting range facility, including but not limited to the following: Ogle County, IL Comprehensive Stormwater Management Ordinance, the Ogle County Health Code, the Illinois Accessibility Code, and 20 ILCS 3105-10.09-1 (Adoption of building code; enforcement).
5. The design and operation of the shooting range facility shall incorporate best management practices for managing lead from fired rounds that meet or exceed the recommendations and/or standards set forth in Best Management Practices for Lead at Outdoor Shooting Ranges (U.S. Environmental Protection Agency).
6. The design and operation of the shooting range facility shall incorporate best management practices for managing and controlling erosion and sedimentation on the site.
7. The shooting range facility shall provide a minimum of one (1) parking space for each shooting position, plus two (2) additional parking spaces.
8. No construction activity shall commence until a Zoning Certificate is issued by the Planning & Zoning Administrator, and the shooting range shall not commence operation until an Occupancy Certificate has been issued by the Planning & Zoning Administrator. The Planning & Zoning Administrator shall not issue an Occupancy Certificate until the following has been submitted: A) Certificate of Inspection for all buildings/structures pursuant to 20 ILCS 3105-10.09-1 (Adoption of building code; enforcement); B) Letter of compliance from the County Engineer that the site is in compliance with the Ogle County, IL Comprehensive Stormwater Management Ordinance; C) Certification from the shooting range design professional of record that the shooting range has been constructed substantially in conformance with the design plans.
9. The entire perimeter of the outdoor shooting range safety fan(s) shall be fenced and signed to reduce the potential for trespass into the safety fan(s). Warning signs identifying the range shall be posted around the perimeter of the parcel or parcels on which the shooting range is located such that each sign is visible and legible from the next. The same signs shall be posted similarly on the security fencing surrounding the safety fan(s).
10. Only firearms chambered in handgun calibers (.45 caliber and smaller) shall be allowed to be utilized on the shooting range.
11. No exploding or explosive targets shall be utilized.

12. Hours of operation shall be limited to 9:00 A.M. to the earlier of one-half hour before sunset or 8:00 P.M. Monday through Saturday, and 11:00 A.M. to the earlier of one-half hour before sunset or 8:00 P.M. on Sunday. Sunset shall be as indicated in the Sunrise-Sunset Tables as published by the Illinois Department Natural Resources.
13. Pursuant to the recommendation of the Illinois Department of Natural Resources, no trees greater than three inches in diameter shall be removed or disturbed in the design, construction and operation of the shooting range facility between April 1 and October 1 in order to protect summer habitat for the endangered **Indiana Bat**, *Myotis sodalis*, and the threatened **Northern Long-Eared Bat**, *Myotis septentrionalis*.
14. A "range safety manager" shall be present inside the shooting range and supervising shooting activities at all times that the shooting range is in use. A "range safety manager" is a person 21 years of age or older that has been trained by a National Rifle Association (NRA) Certified Instructor or an NRA-certified Chief Range Safety Officer. Such training shall be similar to the training that an NRA Range Safety Officer would receive, and shall include range safety manager's roles and responsibilities, range standard operating procedures, range inspection and range rules, firearm stoppages and malfunctions, and emergency procedures.
15. The enclosed shooting facility building shall be provided with an electronic access control system so that access to said shooting range may be obtained only by authorized persons. In addition, the shooting range security enclosure and enclosed shooting facility shall be monitored by both internal (inside any building within said enclosure and within the range area) and external video surveillance cameras.
16. The shooting range shall comply with Illinois noise regulations pursuant to Title 35: Environmental Protection, Subtitle H: Noise, Chapter I: Pollution Control Board. This condition shall apply to the shooting range as authorized pursuant to Special Use No. 2-15SU, and shall not be applicable to the pre-existing operation of the trap shooting range located on the same real property.
17. There shall be no parking of vehicles within the right-of-way of Townline Road.
18. There shall be no intoxicating substances or intoxicated persons (persons under the influence of drugs and/or alcohol) within the shooting range or within adjacent parking areas.
19. Any and all persons utilizing the shooting range shall comply with all federal and state firearm/gun laws.
20. An inspection of the shooting range facility shall be conducted not less than annually by an Illinois-licensed engineer or architect to determine continued range compliance with the approved range design criteria. Said inspection shall be conducted within 30 days of the anniversary date of the issuance of the Occupancy Certificate for the shooting range facility, and a copy of said inspection report submitted to the Ogle County Planning & Zoning Department. If any corrective actions and/or repairs to the shooting range are noted in the aforementioned inspection report, said corrective actions and/or repairs shall be completed within sixty (60) days, and if any conditions exist that are deemed to be unsafe, the shooting range shall not be utilized until corrective actions and/or repairs are made and the inspecting engineer or architect has verified that said corrective actions and/or repairs have been satisfactorily made.

21. The owner and/or operator of the shooting range facility shall, at its expense, maintain a broad form comprehensive coverage policy of public liability insurance in an amount not less than one million U.S. dollars (\$1,000,000) of combined single limit liability coverage per occurrence, accident or incident, with a two million (U.S.) dollar (\$2,000,000) per aggregate.

SECTION THREE: This Ordinance shall be in full force and effect upon its adoption by the County Board of Ogle County, Illinois and attestation by the Ogle County Clerk. Pursuant to Section 16-9-8F1 of the *Ogle County Amendatory Zoning Ordinance*, the Special Use Permit granted pursuant to this Ordinance shall be valid for a period not longer than two (2) years from the date of such ordinance unless the erection of a building or structure is started or the use is commenced within such a period, unless such time period is extended through appeal to and approval by the Supervisor of Assessments and Planning & Zoning Committee of the Ogle County Board. If no appeal is made, or no extension of time is received or granted, the permit shall immediately terminate upon expiration of the two (2) year period.

SECTION FOUR: Failure of the owners or other party in interest or a subsequent owner or other party in interest to comply with the terms of this Ordinance, after execution of such Ordinance, shall subject the owners or party in interest to the penalties set forth in Section 16-9-10 of the *Ogle County Amendatory Zoning Ordinance*.

PASSED BY THE COUNTY BOARD THIS 19<sup>TH</sup> DAY OF JANUARY 2016 A.D.

## FINDINGS OF FACT AND RECOMMENDATION OF THE OGLE COUNTY ZONING BOARD OF APPEALS

This is the findings of fact and the recommendation of the Ogle County Zoning Board of Appeals concerning an application of Byron-Oregon Sportsman & Conservation Club, Inc. c/o O.K. Welty III, 1509 E. Townline Rd., P.O. Box 742, Byron, IL, in case #2-15SU. The applicant is requesting a Special Use Permit in the AG-1 Agricultural District to allow a shooting range on part of Parcel Identification No. 09-02-126-002, a 19.93 acre parcel which is part of Section 2, Township 24N, Range 10E of the 4<sup>th</sup> Principal Meridian and is located in Rockvale Township at 1509 E. Townline Road.

After due notice as required by law, the Zoning Board of Appeals held a public hearing in this case on September 24, 2015 in the County Board Room, 3<sup>rd</sup> Floor, Ogle County Courthouse, Oregon, Illinois and hereby report their findings of fact and their recommendation as follows:

**SITE INFORMATION:** See Staff Report (attached herewith).

**ANALYSIS OF SIX STANDARDS:** After considering all the evidence and testimony presented at the public hearing, this Board makes the following analysis of the six standards listed in Section 9.08(C) (Standards for Special Use Permits) of the *Ogle County Amendatory Zoning Ordinance* that must all be found in the affirmative prior to recommending granting of the petition.

1. That the proposed special use will not be unreasonably detrimental to the value of other property in the neighborhood in which it is to be located or the public health, safety, morals, comfort or general welfare at large. **If properly designed, constructed and operated to ensure that no projectiles or bullets leave the shooting range facility or property, the proposed shooting range facility will not be unreasonably detrimental to the value of other property in the neighborhood in which it is to be located or the public health, safety, morals, comfort or general welfare at large. STANDARD MET.**
2. That the location and size of the special use, the nature and intensity of the operation involved in or conducted in connection with it, and the location of the site with respect to streets giving access to it are such that the special use will not dominate the immediate neighborhood so as to prevent development and use of neighboring property in accordance with the applicable zoning district regulations. In determining whether the special use will so dominate the immediate neighborhood, consideration shall be given to:
  - a. The location, nature and height of building, structures, walls and fences on the site; and,
  - b. The nature and extent of proposed landscaping and screening on the proposed site.

**If properly designed, constructed and operated to ensure that no projectiles or bullets leave the shooting range facility or property, the proposed shooting range facility will not dominate the immediate neighborhood so as to prevent development and use of neighboring property. STANDARD MET.**

3. That off-street parking and loading areas will be provided in accordance with the standards set forth in these regulations. **The site is large enough so that adequate off-street parking and loading areas can be provided. STANDARD MET.**
4. That adequate utilities, ingress/egress to the site, access roads, drainage and other such necessary facilities have been or will be provided. **Adequate utilities, ingress/egress to the site from E. Townline Road, access roads, drainage and other such necessary facilities have been or will be provided. STANDARD MET.**
5. That the proposed use can be operated in a manner that is not detrimental to the permitted developments and uses in the zoning district; can be developed and operated in a manner that is visually compatible with the permitted uses in the surrounding area; and is deemed essential or desirable to preserve and promote the public health, safety and general welfare of Ogle County. **The proposed shooting range, if designed, constructed and operated so that no projectiles leave the shooting range facility or property, can be operated in a manner that is not detrimental to the permitted developments and uses in the AG-1 Agricultural district. Due to its location in mature timber the proposed shooting range facility can be operated in a manner that is visually compatible with the existing will be visually compatible with the permitted uses in the surrounding area. Due to the growing popularity of shooting sports and the need for shooting ranges to train shooter in firearm safety and accuracy, the proposed shooting range is deemed essential and desirable to preserve and promote the public health, safety and general welfare of Ogle County. STANDARD MET.**
6. That the proposed special use complies with all provisions of the applicable district regulations. **The proposed special use appears to comply with all provisions of the AG-1 zoning district regulations. STANDARD MET.**

**RECOMMENDATION:** After considering all the evidence and testimony presented, this Board finds that the application meets all the standards as found in Section 6-9-8C of the *Ogle County Amendatory Zoning Ordinance*.

Therefore, the Zoning Board of Appeals hereby recommends that a Special Use Permit in the AG-1 Agricultural District be granted to allow a shooting range subject to the following conditions:

1. All proposals and representations made by the applicant and/or their representative shall be conditions of the Special Use Permit.
2. As contained herein, the following words and terms shall have the respective meanings ascribed to them:

**Bullet:** A single projectile fired from a firearm.

**Firearm(s):** A term used to describe any gun, usually small, from which a bullet is propelled by means of hot gasses generated by burning powder (usually smokeless or black powder).

**Firing line:** A line parallel to the targets from where firearms are discharged.

**Firing position (point):** An area directly behind the firing line having a specified width and depth that is occupied by a shooter, his or her equipment and, if appropriate, an instructor or coach.

**Pistol:** A firearm capable of being held, aimed and fired with one hand. Also known as a handgun.

**Rifle:** A modern firearm designed to be fired from the shoulder. Its main characteristic is a rifled (grooved) barrel that imparts a spin to a single projectile as it travels through the bore. Some rifles designed for military or law enforcement use may have a pistol grip stock instead of a shoulder stock. For purposes herein, "rifles" shall also include black powder and other muzzle loading firearms, some of which may have rifled barrels.

**Safety fan:** The safety fan of a shooting range consists of three parts: the direct fire zone, the safety zone, and the ricochet zone. The direct fire zone is that area into which all shots are fired during the normal course of shooting. This zone includes all directions and angles of fire used on a shooting range while shooting at a specific target, either stationary or moving, from a specific firing point. The length of the direct fire zone extends to the maximum range of the ammunition and firearm used on the firing range, but can be shortened by physical barriers or other devices which reduce the maximum distance of a bullet's trajectory. The safety zone extends 10 degrees to the left and right of the direct fire zone and protects against errant bullets caused by cross fire or accidental discharge of a firearm. The ricochet zone is that area 45 degrees to the left and right of the firing line, and extended a certain distance dependent on the type of firearm and ammunition allowed on the range (i.e., 85 yards for air guns, and up to 1,200 yards for high-powered rifles). The line is then extended parallel to each side of the safety zone downrange to the intersection of a line extended from the terminus of the direct fire zone through the outer corner of the safety zone.

**Shooting Range(s):** An area designed and improved to encompass shooting stations or firing lines, target areas, berms and baffles, and other related components.

**Shooting Range Facility:** A facility including individual Shooting Ranges, safety fans, Structures, parking area(s), and other associated improvements, designed for the purpose of providing a place for the discharge of various types of Firearms.

**Shotgun:** A firearm designed to be fired from the shoulder with a smoothbore barrel that fires shot shells possessing a varying number of round pellets. Some barrels are designed to be used with rifled slugs, most generally having smoothbores, but in some cases may be rifled. Law enforcement and military shotguns may have a pistol grip stock instead of a shoulder stock.

**Structure(s):** A walled and roofed building that is principally above ground or any other permanent, manmade facilities.

**Surface Danger Zone:** Any area that may reasonably expect projectile impact resulting from direct fire, including misdirected and accidental discharges, and ricochets from any Firearm, which takes into consideration all mitigation efforts as submitted by the applicant and determined by a qualified licensed design professional with experience in outdoor shooting range planning and design.

3. The shooting range facility shall be designed by a qualified licensed design professional with experience in outdoor shooting range planning and design. The shooting range shall be designed

in accordance with the most current edition of the Range Source Book (published by the National Rifle Association) or other industry-accepted shooting range design criteria as deemed acceptable by the Ogle County Planning & Zoning Administrator, provided alternative design criteria are at least as or more restrictive than the Range Source Book. The shooting range facility shall be designed to ensure that all projectiles are contained within the vertical projection of the property lines.

4. All applicable local, state and/or federal laws, ordinance and requirements shall be met in the design, construction and operation of the shooting range facility, including but not limited to the following: Ogle County, IL Comprehensive Stormwater Management Ordinance, the Ogle County Health Code, the Illinois Accessibility Code, and 20 ILCS 3105-10.09-1 (Adoption of building code; enforcement).
5. The design and operation of the shooting range facility shall incorporate best management practices for managing lead from fired rounds that meet or exceed the recommendations and/or standards set forth in Best Management Practices for Lead at Outdoor Shooting Ranges (U.S. Environmental Protection Agency).
6. The design and operation of the shooting range facility shall incorporate best management practices for managing and controlling erosion and sedimentation on the site.
7. The shooting range facility shall provide a minimum of one (1) parking space for each shooting position, plus two (2) additional parking spaces.
8. No construction activity shall commence until a Zoning Certificate is issued by the Planning & Zoning Administrator, and the shooting range shall not commence operation until an Occupancy Certificate has been issued by the Planning & Zoning Administrator. The Planning & Zoning Administrator shall not issue an Occupancy Certificate until the following has been submitted: A) Certificate of Inspection for all buildings/structures pursuant to 20 ILCS 3105-10.09-1 (Adoption of building code; enforcement); B) Letter of compliance from the County Engineer that the site is in compliance with the Ogle County, IL Comprehensive Stormwater Management Ordinance; C) Certification from the shooting range design professional of record that the shooting range has been constructed substantially in conformance with the design plans.
9. The entire perimeter of the outdoor shooting range safety fan(s) shall be fenced and signed to reduce the potential for trespass into the safety fan(s). Warning signs identifying the range shall be posted around the perimeter of the parcel or parcels on which the shooting range is located such that each sign is visible and legible from the next. The same signs shall be posted similarly on the security fencing surrounding the safety fan(s).
10. Only firearms chambered in handgun calibers (.45 caliber and smaller) shall be allowed to be utilized on the shooting range.
11. No exploding or explosive targets shall be utilized.

12. Hours of operation shall be limited to 9:00 A.M. to the earlier of one-half hour before sunset or 8:00 P.M. Monday through Saturday, and 11:00 A.M. to the earlier of one-half hour before sunset or 8:00 P.M. on Sunday. Sunset shall be as indicated in the Sunrise-Sunset Tables as published by the Illinois Department Natural Resources.
13. Pursuant to the recommendation of the Illinois Department of Natural Resources, no trees greater than three inches in diameter shall be removed or disturbed in the design, construction and operation of the shooting range facility between April 1 and October 1 in order to protect summer habitat for the endangered **Indiana Bat**, *Myotis sodalis*, and the threatened **Northern Long-Eared Bat**, *Myotis septentrionalis*.
14. The shooting range shall be supervised at all times during operation by an NRA-certified Range Safety Officer.

**ROLL CALL VOTE:** The roll call vote was 3 members for the motion to recommend granting, 2 opposed.

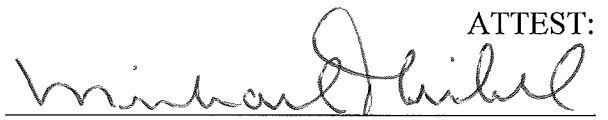

Respectfully submitted this 24<sup>th</sup> day of September 2015 by the Ogle County Zoning Board of Appeals.

ORDINANCE 2016-0102

INDEMNITY FUND

WHEREAS, the County has established a Tax Sale Indemnity fund under 35 ILCS 200/21-295, and

WHEREAS, 35 ILCS 200/21-300 allows monies received under 35 ILCS 200/21-295 to be deposited in the general fund for general county government purposes, if the County Board provides by ordinance that the indemnity required by Section 21-295 be provided by the Tort Liability Fund, and

WHEREAS, the County has sufficient funds available in the Tort Liability Fund (Insurance Premium Levy Fund) to provide indemnity to the County for any exposure created as a result of tax sales.

THEREFORE, BE IT ORDAINED, by the County Board of Ogle County, State of Illinois, that the indemnity required by 35 ILCS 200/21-295 be provided by the Tort Liability Fund (Insurance Premium Levy Fund), and

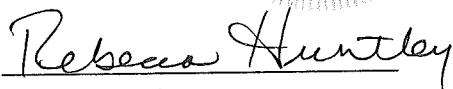

BE IT FURTHER ORDAINED, that the balance of the Tax Sale Indemnity Fund be transferred to the General Fund, and

BE IT FURTHER ORDAINED, that all future fees collected under 35 ILCS 200/21-295 be deposited into the General Fund.

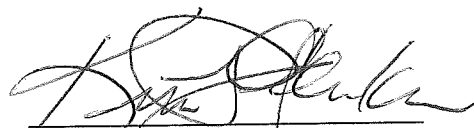

APPROVED AND ADOPTED by the Ogle County Board, State of Illinois, this 19<sup>th</sup> day of January, 2016.
