General Provisions

1. The acceptance of the permit by the grantee constitutes an agreement that the movement will be made strictly in compliance with the terms set forth in the permit.
2. The permit is effective only insofar as the Ogle County Highway Department or the appropriate Road District (hereinafter referred to as the Local Agency) has jurisdiction and does not release the grantee from complying with other existing laws which may apply to the movement.
3. This permit is void on any highway or bridge posted for a load limit that is less than the weights allowed by this permit or closed to traffic, and on any highway not under the jurisdiction of the Local Agency issuing this permit.
4. The grantee assumes all responsibility for injury to persons or damage to public or private property, including his own or the object being transported, caused directly or indirectly by the transportation of vehicles or vehicles and objects authorized under this permit. The grantee agrees to hold the Local Agency harmless from all suits, claims, damages or proceedings of any kind and to indemnify the Local Agency for any claim it may be required to pay arising from the movement.
5. This permit grants authority only for the operation of the vehicle specifically indicated in the application; substitution of any vehicle or load will render the permit null and void.
6. The driver of the vehicle shall have the permit in his possession during the progress of the movement and shall show said permit on demand to any police officer or authorized employee of the Local Agency.
7. This permit has been issued by the Local Agency with the understanding that: (1) All legal requirements concerning operational authority imposed by the Illinois Motor Carrier of Property Act or the Interstate Commerce Commission have been complied with by the applicant: (2) The vehicles have been properly licensed in accordance with Illinois law for the gross weight being transported: (3) Both the driver and owner of the vehicle to be moved have met all financial responsibility requirements imposed by law and: (4) The operator is properly licensed. When this permit has been acted upon by the grantee such action shall be deemed an unequivocal allegation by the grantee that all operational, licensing and financial responsibility requirements have been complied with.
8. Maximum allowable width and height are 8 feet and 13 feet 6 inches respectively.
9. Height of structures shall be checked by grantee to insure that adequate clearance is available for the movement. Section 15-318 of the Illinois Vehicle Code places liability for damage to structure upon the permittee.
10. This permit may not be extended or transferred.
11. Axle weight tolerances do not apply. Penalties for exceeding the allowed weights shall be assessed in accordance with Section 15-113.2 of the Illinois Vehicle Code for all weight in excess of the permitted weights.
12. The legal maximum gross truck weights contained in Section 15-111 of the Illinois Vehicle Code apply.
