FINDINGS OF FACT AND RECOMMENDATION
OF THE ZONING BOARD OF APPEALS
FINDINGS OF FACT AND RECOMMENDATION
OF THE OGLE COUNTY ZONING BOARD OF APPEALS

This is the findings of fact and the recommendation of the Ogle County Zoning Board of Appeals concerning an application of John B. Franklin, 8827 N. Conger Rd., Byron, IL, in case #10-13AM. The applicant is requesting a map amendment to change the zoning classification of part of Parcel Identification No. 04-26-100-004, a 30.925 acre parcel, from AG-1 Agricultural District to IA Intermediate Agricultural District. Said parcel is part of Section 26, Township 25N, Range 10E of the 4th Principal Meridian and is located in Byron Township at 8827 N. Conger Road.

After due notice, as required by law, the Zoning Board of Appeals held a public hearing in this case on January 30, 2014 in the County Board Room, 3rd Floor, Ogle County Courthouse, Oregon, Illinois and hereby report their findings of fact and their recommendation as follows:

SITE INFORMATION: See Staff Report (attached herewith).

ANALYSIS OF SIX STANDARDS: After considering all the evidence and testimony presented at the public hearing, this Board makes the following analysis of the six standards listed in Section 9.07(G) (Standards for Map Amendments) of the Ogle County Amendatory Zoning Ordinance that must all be found in the affirmative prior to recommending granting of the petition.

1. That the proposed amendment will allow development that is compatible with existing uses and zoning of nearby property. Continued residential and agricultural use of the property is compatible with the existing uses and zoning of nearby property, as the residential use has been established since 2006 and no material change in the use will occur as a result of the proposed amendment. **Standard met.**

2. That the County of Ogle and other service providers will be able to provide adequate public facilities and services to the property (including, but not necessarily limited to, schools, police and fire protection, roads and highways, water supply and sewage disposal), while maintaining adequate public facilities and levels of service to existing development. The continued use of the site for one dwelling and agriculture use will not create a burden on the County of Ogle and other public service providers due to the low intensity of development. **Standard met.**

3. That the proposed amendment will not result in significant adverse impacts on other property in the vicinity of the subject site or on the environment, including air, noise, stormwater management, wildlife and natural resources. **No material change in the use of the property is proposed as a result of the proposed amendment, and no significant adverse impact on other property or on the environment have occurred or are likely to occur. Standard met.**
4. That the subject property is suitable for the proposed zoning classification. The site is suitable for the IA zoning district, as the proposed amendment conforms to the Purpose and Intent of the IA zoning district. Standard met.

5. That the proposed zoning classification is consistent with the trend of development, if any, in the general area of the subject property including changes, if any, which have taken place since the day the property in question was placed in its present zoning classification. There is no trend of development in the general area other than agricultural uses, and a residential use has been established on the subject property. Continued use of the site for large-lot residential use with the site being maintained as open space and wildlife habitat is consistent with this trend. Standard met.

6. That the proposed amendment is consistent with the public interest and not solely for the interest of the applicant, giving due consideration to the stated purpose and intent of the Amendatory Zoning Ordinance as set forth in Division 1 therein, the Land Evaluation and Site Assessment (LESA) findings (if applicable), and the recommendation(s) of the Ogle County Regional Planning Commission with respect to the Ogle County Amendatory Comprehensive Plan. The proposed amendment is consistent with the public interest and not solely for the interest of the applicant. The proposed amendment is consistent with the purpose and intent of the Amendatory Zoning Ordinance; the Zoning Board of Appeals has considered the recommendation of the Regional Planning Commission that the petition be approved. Standard met.

RECOMMENDATION: We find that the proposed map amendment requested meets all the standards for recommending granting as found in Section 9.07(G) of the Ogle County Amendatory Zoning Ordinance and that such request is in the public interest. Therefore, the Zoning Board of Appeals hereby recommends that the zoning district classification of the property described above be changed from AG-1 Agricultural District to IA Intermediate Agricultural District.

ROLL CALL VOTE: The roll call vote was 4 members for the motion to recommend granting, 0 opposed.

Respectfully submitted this 30th day of January 2014 by the Ogle County Zoning Board of Appeals.
