FINDINGS OF FACT AND RECOMMENDATION
OF THE ZONING BOARD OF APPEALS
FINDINGS OF FACT AND RECOMMENDATION
OF THE OGLE COUNTY ZONING BOARD OF APPEALS

This is the findings of fact and the recommendation of the Ogle County Zoning Board of Appeals concerning an application of Doug & Gayla Creason, 15254 E. IL Route 72, Davis Junction, IL and Rudy Dixon, 270 Vida Ct., Sycamore, IL in case #8-15AM. The applicants are requesting a map amendment to change the zoning classification from R-2 Single Family Residence District to R-1 Rural Residence District on Parcel Identification Nos. 24-07-476-005 and 24-07-476-006. Said parcel(s) are described as Lots 2 and 3 of Goldie Acres Subdivision, located in part of the SE 1/4 SE 1/4 of Section 7, Township 40 North, Range 1 East of the 3rd P.M., Ogle County, Illinois, and are located in Flagg Township in the 9800 Block of E. Fowler Road.

After due notice, as required by law, the Zoning Board of Appeals held a public hearing in this case on September 24, 2015 in the County Board Room, 3rd Floor, Ogle County Courthouse, Oregon, Illinois and hereby reports its findings of fact and recommendation(s) as follows:

SITE INFORMATION: See Staff Report (attached herewith).

ANALYSIS OF SIX STANDARDS: After considering all the evidence and testimony presented at the public hearing, this Board makes the following analysis of the six standards listed in Section 16-9-7G (Report by Zoning Board of Appeals) of the Ogle County Amenderatory Zoning Ordinance that must all be found in the affirmative prior to recommending granting of the petition.

1. That the proposed amendment will allow development that is compatible with existing uses and zoning of nearby property. Use of the site for large-lot rural residential use is compatible with the existing uses and zoning of nearby property, as the site adjoins similar land uses, and there are similar land uses in the vicinity. Standard met.

2. That the County of Ogle and other service providers will be able to provide adequate public facilities and services to the property (including, but not necessarily limited to, schools, police and fire protection, roads and highways, water supply and sewage disposal), while maintaining adequate public facilities and levels of service to existing development. Use of the site for large-lot residential use will not create a burden on the County of Ogle and other public service providers due to its location on a hard-surfaced road, relative proximity to public service providers, and the low density of development that will be generated on the site. Standard met.

3. That the proposed amendment will not result in significant adverse impacts on other property in the vicinity of the subject site or on the environment, including air, noise, stormwater management, wildlife and natural resources. Little or no adverse impacts on other property in the vicinity of the subject site or on the environment, including air, noise, stormwater management, wildlife and natural resources are anticipated from residential use of the site. Standard met.
4. That the subject property is suitable for the proposed zoning classification. **The site is located in a predominately residential area that contains both small (less than 1 acre) residential parcels and larger residential parcels similar in use to the proposed use. Standard met.**

5. That the proposed zoning classification is consistent with the trend of development, if any, in the general area of the subject property including changes, if any, which have taken place since the day the property in question was placed in its present zoning classification. **There is an established trend of development in the vicinity of residential uses and zoning. The proposed zoning classification of R-1 Rural Residence District is consistent with this trend. Standard met.**

6. That the proposed amendment is consistent with the public interest and not solely for the interest of the applicant, giving due consideration to the stated purpose and intent of the Amendatory Zoning Ordinance as set forth in Division 1 therein, the Land Evaluation and Site Assessment (LESA) findings (if applicable), and the recommendation(s) of the Ogle County Regional Planning Commission with respect to the Ogle County Amendatory Comprehensive Plan. **The proposed amendment is consistent with the public interest and not solely for the interest of the applicant as the proposed amendment is consistent with the purpose and intent of the Amendatory Zoning Ordinance. The Zoning Board of Appeals has given due consideration that the Regional Planning Commission has recommended approval. Standard met.**

**RECOMMENDATION:** We find that the proposed map amendment requested meets all the standards for recommending granting as found in Section 16-9-7G of the Ogle County Amendatory Zoning Ordinance and that such request is in the public interest. Therefore, the Zoning Board of Appeals hereby recommends that the zoning district classification of the property described above be changed from R-2 Single Family Residence District to R-1 Rural Residence District.

**ROLL CALL VOTE:** The roll call vote was 5 members for the motion to recommend granting, 0 opposed.

This is the findings of fact and the recommendation of the Ogle County Zoning Board of Appeals concerning an application of Scott A. & Patricia J. Watson, 1346 Marijon Dr., Byron, IL in case #9-15AM. The applicants are requesting a map amendment to change the zoning classification from AG-1 Agricultural District to R-1 Rural Residence District on Parcel Identification Nos. 05-18-200-003 and 05-07-400-005. Said parcel(s), 10.0 acres in area, are located in part of the NW 1/4 NE 1/4 & part of the NE 1/4 NE 1/4 Section 18, Township 25 North, Range 11 East of the 4th P.M. and part of the SW 1/4 SE 1/4 Section 7, Township 25 North, Range 11 East of the 4th P.M., Ogle County, Illinois, and are located in Byron Township at 3707 E. After due notice, as required by law, the Zoning Board of Appeals held a public hearing in this case on September 24, 2015 in the County Board Room, 3rd Floor, Ogle County Courthouse, Oregon, Illinois and hereby reports its findings of fact and recommendation(s) as follows:

SITE INFORMATION: See Staff Report (attached herewith).

ANALYSIS OF SIX STANDARDS: After considering all the evidence and testimony presented at the public hearing, this Board makes the following analysis of the six standards listed in Section 16-9-7G (Report by Zoning Board of Appeals) of the Ogle County Amenityary Zoning Ordinance that must all be found in the affirmative prior to recommending granting of the petition.

1. That the proposed amendment will allow development that is compatible with existing uses and zoning of nearby property. Residential use of the site will not adversely affect surrounding agricultural operations, the site is adjacent to an existing non-farm dwelling, and it is compatible with the surrounding area as there are five (5) non-farm dwellings within 1/4 mile of the site and seven (7) non-farm dwellings within ½ mile of the site. Standard met.

2. That the County of Ogle and other service providers will be able to provide adequate public facilities and services to the property (including, but not necessarily limited to, schools, police and fire protection, roads and highways, water supply and sewage disposal), while maintaining adequate public facilities and levels of service to existing development. The site is located on a seal coat surface road, is within 1.5 miles of the City of Byron, and will generate a low density of development. Standard met.

3. That the proposed amendment will not result in significant adverse impacts on other property in the vicinity of the subject site or on the environment, including air, noise, stormwater management, wildlife and natural resources. Little or no adverse impacts on other property in the vicinity of the subject site or on the environment, including air, noise, stormwater management, wildlife and natural resources are anticipated from the development of the site. Standard met.
4. That the subject property is suitable for the proposed zoning classification. The site is a former farmstead, and is not in agricultural production. The site is located in a rural area that contains several non-farm residential uses within 1/4 mile of the site, is adjacent to an existing non-farm residential parcel, is located on a seal coat surfaced road, and has a low LESA score. Standard met.

5. That the proposed zoning classification is consistent with the trend of development, if any, in the general area of the subject property including changes, if any, which have taken place since the day the property in question was placed in its present zoning classification. The site is a former farmstead, and there is a trend of development in the vicinity of non-farm residential uses, as there are five (5) non-farm dwellings within 1/4 mile of the site and seven (7) non-farm dwellings within ½ mile of the site. The proposed zoning classification of R-1 Rural Residence District is consistent with this trend. Standard met.

6. That the proposed amendment is consistent with the public interest and not solely for the interest of the applicant, giving due consideration to the stated purpose and intent of the Amendatory Zoning Ordinance as set forth in Division I therein, the Land Evaluation and Site Assessment (LESA) findings (if applicable), and the recommendation(s) of the Ogle County Regional Planning Commission with respect to the Ogle County Amendatory Comprehensive Plan. The LESA score indicates a low rating for protection, and the proposed amendment is consistent with the purpose and intent of the Amendatory Zoning Ordinance. The Zoning Board of Appeals has given due consideration that the Regional Planning Commission has recommended approval. Standard met.

RECOMMENDATION: We find that the proposed map amendment requested meets all the standards for recommending granting as found in Section 16-9-7G of the Ogle County Amendatory Zoning Ordinance and that such request is in the public interest. Therefore, the Zoning Board of Appeals hereby recommends that the zoning district classification of the property described above be changed from AG-2 Agricultural District to R-1 Rural Residence District.

SITE INFORMATION: See Staff Report (attached herewith).

ANALYSIS OF SIX STANDARDS: After considering all the evidence and testimony presented at the public hearing, this Board makes the following analysis of the six standards listed in Section 16-9-8C (Standards for Special Use Permits) of the Ogle County Amenityory Zoning Ordinance that must all be found in the affirmative prior to recommending granting of the petition.

1. That the proposed special use will not be unreasonably detrimental to the value of other property in the neighborhood in which it is to be located or the public health, safety, morals, comfort or general welfare at large. No evidence has been presented that would indicate a guest house would be unreasonably detrimental to the value of other property in the neighborhood in which it is to be located or the public health, safety, morals, comfort or general welfare at large. STANDARD MET.

2. That the location and size of the special use, the nature and intensity of the operation involved in or conducted in connection with it, and the location of the site with respect to streets giving access to it are such that the special use will not dominate the immediate neighborhood so as to prevent development and use of neighboring property in accordance with the applicable zoning district regulations. In determining whether the special use will so dominate the immediate neighborhood, consideration shall be given to:

   a. The location, nature and height of building, structures, walls and fences on the site; and,

   b. The nature and extent of proposed landscaping and screening on the proposed site.

The proposed guest house will be in architectural harmony with the proposed dwelling to be constructed, and is well buffered from adjoining uses. STANDARD MET.

3. That off-street parking and loading areas will be provided in accordance with the standards set forth in these regulations. The site is large enough so that adequate off-street parking and loading areas can be provided. STANDARD MET.
4. That adequate utilities, ingress/egress to the site, access roads, drainage and other such necessary facilities have been or will be provided. Adequate utilities, ingress/egress to the site from E. Oak Grove Road, access roads, drainage and other such necessary facilities have been or will be provided. STANDARD MET.

5. That the proposed use can be operated in a manner that is not detrimental to the permitted developments and uses in the zoning district; can be developed and operated in a manner that is visually compatible with the permitted uses in the surrounding area; and is deemed essential or desirable to preserve and promote the public health, safety and general welfare of Ogle County.
