3. That off-street parking and loading areas will be provided in accordance with the standards set forth in these regulations. **The site is large enough so that adequate off-street parking and loading areas can be provided. **STANDARD MET.

4. That adequate utilities, ingress/egress to the site, access roads, drainage and other such necessary facilities have been or will be provided. **Adequate utilities, ingress/egress to the site from W. Townline Road, access roads, drainage and other such necessary facilities have been or will be provided. **STANDARD MET.

5. That the proposed use can be operated in a manner that is not detrimental to the permitted developments and uses in the zoning district; can be developed and operated in a manner that is visually compatible with the permitted uses in the surrounding area; and is deemed essential or desirable to preserve and promote the public health, safety and general welfare of Ogle County. **The proposed use can be operated in a manner that is not detrimental to the permitted developments and uses in the AG-1 zoning district, will be visually compatible with the area, and is deemed essential and desirable due to the use being conducted from within an existing building on a farm and it will complement agricultural operations in the vicinity. **STANDARD MET.

6. That the proposed special use complies with all provisions of the applicable district regulations. **The proposed special use appears to comply with all provisions of the AG-1 district regulations. **STANDARD MET.

RECOMMENDATION: After considering all the evidence and testimony presented, this Board finds that the application meets all the standards as found in Section 6-9-8C of the Ogle County Amended Zoning Ordinance.
