FINDINGS OF FACT AND RECOMMENDATION
OF THE ZONING BOARD OF APPEALS
This is the findings of fact and the recommendation of the Ogle County Zoning Board of Appeals concerning an application of Kathleen Marszalek, 2018 N. IL Route 251, Rochelle, IL in case #08-18AM. The applicant is requesting a Map Amendment to change the zoning classification from B-1 Business District to AG-1 Agricultural District on Parcel Identification Nos. 18-01-300-002 and 18-01-300-004, a parcel of land located in part of the Southeast Quarter (SE 1/4) of the Southwest Quarter (SW 1/4) of Section 1, and part of the Northeast Quarter (NE 1/4) of the Northwest Quarter (NW 1/4) of Section 12, all in T41N, R1E of the 3rd P.M., White Rock Township, Ogle County, IL and located at 2018 N. IL Route 251.

After due notice, as required by law, the Zoning Board of Appeals held a public hearing in this case on August 30, 2018 in the County Board Room, 3rd Floor, Ogle County Courthouse, Oregon, Illinois and hereby reports its findings of fact and recommendation(s) as follows:

SITE INFORMATION: See Staff Report (attached herewith).

ANALYSIS OF SIX STANDARDS: After considering all the evidence and testimony presented at the public hearing, this Board makes the following analysis of the six standards listed in Section 16-9-7G (Report by Zoning Board of Appeals) of the Ogle County Amendatory Zoning Ordinance that must all be found in the affirmative prior to recommending granting of the petition.

1. That the proposed amendment will allow development that is compatible with existing uses and zoning of nearby property. Rezoning of the site to AG-1 to allow continued residential use of the site is compatible with the existing uses and zoning of nearby property, as the site is located in an area that is predominately agricultural, the site is adjoined by agricultural uses on all sides, and approximately 44% of the site is currently zoned AG-1. Standard met.

2. That the County of Ogle and other service providers will be able to provide adequate public facilities and services to the property (including, but not necessarily limited to, schools, police and fire protection, roads and highways, water supply and sewage disposal), while maintaining adequate public facilities and levels of service to existing development. Continued residential use of the site will not create a burden on the County of Ogle and other public service providers, as no change in the intensity of use is proposed. Standard met.

3. That the proposed amendment will not result in significant adverse impacts on other property in the vicinity of the subject site or on the environment, including air, noise, stormwater management, wildlife and natural resources. No adverse impacts or impact on the environment will result from the proposed map amendment, as no change in the use of the property is proposed. Standard met.

4. That the subject property is suitable for the proposed zoning classification. The site is suitable for the AG-1 zoning district, as it is currently, and has been used for single-family residential purposes, the existing dwelling on the site pre-dates the establishment of the first Ogle County zoning ordinance, and a portion of the site is currently zoned AG-1. Standard met.
5. That the proposed zoning classification is consistent with the trend of development, if any, in the general area of the subject property including changes, if any, which have taken place since the day the property in question was placed in its present zoning classification. The trend of development in the general area is of existing and established residential uses and agricultural uses. The proposed zoning classification of AG-1 is consistent with this trend. Standard met.

6. That the proposed amendment is consistent with the public interest and not solely for the interest of the applicant, giving due consideration to the stated purpose and intent of the Amendatory Zoning Ordinance as set forth in Division 1 therein, the Land Evaluation and Site Assessment (LESA) findings (if applicable), and the recommendation(s) of the Ogle County Regional Planning Commission with respect to the Ogle County Amendatory Comprehensive Plan. The proposed amendment is consistent with the public interest and not solely for the interest of the applicant, as it will make an existing and established use consistent with the Zoning Ordinance and surrounding uses; the proposed amendment is also consistent with the purpose and intent of the Amendatory Zoning Ordinance. The Zoning Board of Appeals has given due consideration that the Regional Planning Commission has recommended approval. Standard met.

RECOMMENDATION: We find that the proposed map amendment requested meets all the standards for recommending granting as found in Section 16-9-7G of the Ogle County Amendatory Zoning Ordinance and that such request is in the public interest. Therefore, the Zoning Board of Appeals hereby recommends that the zoning district classification of the property described above be changed from B-1 Business District to R-2 Single Family Residence District.

ROLL CALL VOTE: The roll call vote was 5 members for the motion to recommend granting, 0 opposed.

Respectfully submitted this 30th day of August 2018 by the Ogle County Zoning Board of Appeals.

FINDINGS OF FACT AND RECOMMENDATION
OF THE ZONING BOARD OF APPEALS
FINDINGS OF FACT AND RECOMMENDATION
OF THE OGLE COUNTY ZONING BOARD OF APPEALS

This is the findings of fact and the recommendation of the Ogle County Zoning Board of Appeals concerning an application of Greeland Cattle, LLC c/o Douglas Glendenning, 10477 E. High Rd., Davis Junction, IL in case #14-18SU. The applicant is requesting a Special Use Permit in the AG-1 Agricultural District to allow an Agribusiness (repair shop primarily for agriculturally related equipment) on Parcel Identification No. 11-17-100-004, a 36.97-acre parcel located in part of the Northeast Quarter (NE 1/4) of the Northwest Quarter (NW 1/4) and part of the Southeast Quarter (SE 1/4) of the Northwest Quarter (NW 1/4) of Section 17, T42N, R1E of the 3rd P.M., Ogle County, IL, situated in Scott Township and located at the common address of 10477 E. High Road.

After due notice, as required by law, the Zoning Board of Appeals held a public hearing in this case on August 30, 2018 in the County Board Room, 3rd Floor, Ogle County Courthouse, Oregon, Illinois and hereby reports its findings of fact and recommendation(s) as follows:

SITE INFORMATION: See Staff Report (attached herewith).

ANALYSIS OF SIX STANDARDS: After considering all the evidence and testimony presented at the public hearing, this Board makes the following analysis of the six standards listed in Section 16-9-8C (Standards for Special Use Permits) of the Ogle County Amended Zoning Ordinance that must all be found in the affirmative prior to recommending granting of the petition.

1. That the proposed use will not be unreasonably detrimental to the value of other property in the neighborhood in which it is to be located or the public health, safety, morals, comfort or general welfare at large. The proposed special use will not be unreasonably detrimental to the value of other property in the neighborhood in which it is to be located or the public health, safety, morals, comfort or general welfare at large due to the nature of the use (being an agribusiness) in a predominately agricultural area on a site surrounded by agricultural uses. STANDARD MET.

2. That the location and size of the special use, the nature and intensity of the operation involved in or conducted in connection with it, and the location of the site with respect to streets giving access to it are such that the special use will not dominate the immediate neighborhood so as to prevent development and use of neighboring property in accordance with the applicable zoning district regulations. In determining whether the special use will so dominate the immediate neighborhood, consideration shall be given to:

   a. The location, nature and height of building, structures, walls and fences on the site; and,

   b. The nature and extent of proposed landscaping and screening on the proposed site.

   The proposed special use will not dominate the immediate neighborhood so as to prevent development and use of neighboring property in accordance with the AG-1 zoning district regulations, as the proposed use utilizes an existing building and the site is within a predominately agricultural area. STANDARD MET.

3. That off-street parking and loading areas will be provided in accordance with the standards set forth in these regulations. The site is large enough so that adequate off-street parking and loading areas can be provided. STANDARD MET.
4. That adequate utilities, ingress/egress to the site, access roads, drainage and other such necessary facilities have been or will be provided. **Adequate utilities, ingress/egress to the site from E. High Road, access roads, drainage and other such necessary facilities have been or will be provided. STANDARD MET.**

5. That the proposed use can be operated in a manner that is not detrimental to the permitted developments and uses in the zoning district; can be developed and operated in a manner that is visually compatible with the permitted uses in the surrounding area; and is deemed essential or desirable to preserve and promote the public health, safety and general welfare of Ogle County. **The proposed use of a repair shop primarily for agriculturally-related equipment can be operated in a manner that is not detrimental to the permitted developments and uses in the AG-1 zoning district, will be visually compatible with the area, and is deemed essential and desirable, as proposed use will serve and complement the surrounding agricultural area. STANDARD MET.**

6. That the proposed special use complies with all provisions of the applicable district regulations. **The proposed special use appears to comply with all provisions of the AG-1 district regulations. STANDARD MET.**

**RECOMMENDATION:** After considering all the evidence and testimony presented, this Board finds that the application meets all the standards as found in Section 6-9-8C of the *Ogle County Amendatory Zoning Ordinance.*

Therefore, the Zoning Board of Appeals hereby recommends that a Special Use Permit in the AG-1 Agricultural District be granted to allow a contractor shop for a tree service (tree trimming & removal) subject to the following conditions:

1. All proposals and representations made by the applicant and/or their representative shall be conditions of the Special Use Permit.
2. All waste generated from the operation of the authorized use shall be disposed of in accordance with all applicable local, state and/or federal regulations.
3. The owner/operator shall contact the Stillman Valley Fire Protection District (SVFPD) to request an Occupancy Permit pursuant to the NFPA 101 Life Safety Code and, if required by the SVFPD, shall provide a copy of the issued Occupancy Permit to the Planning & Zoning Department within 90 days of the granting of this Special Use.

SITE INFORMATION: See Staff Report (attached herewith).

ANALYSIS OF SIX STANDARDS: After considering all the evidence and testimony presented at the public hearing, this Board makes the following analysis of the six standards listed in Section 16-9-8C (Standards for Special Use Permits) of the Ogle County Amended Zoning Ordinance that must all be found in the affirmative prior to recommending granting of the petition.

1. That the proposed special use will not be unreasonably detrimental to the value of other property in the neighborhood in which it is to be located or the public health, safety, morals, comfort or general welfare at large. The site is isolated and is well buffered by distance and topography from other residential uses in the vicinity. STANDARD MET.

2. That the location and size of the special use, the nature and intensity of the operation involved in or conducted in connection with it, and the location of the site with respect to streets giving access to it are such that the special use will not dominate the immediate neighborhood so as to prevent development and use of neighboring property in accordance with the applicable zoning district regulations. In determining whether the special use will so dominate the immediate neighborhood, consideration shall be given to:

   a. The location, nature and height of building, structures, walls and fences on the site; and,

   b. The nature and extent of proposed landscaping and screening on the proposed site.

   The existing site conditions will remain unchanged, and the dwelling to be utilized is isolated and nearly ½ mile from Woodlawn Road. STANDARD MET.

3. That off-street parking and loading areas will be provided in accordance with the standards set forth in these regulations. The site is large enough so that adequate off-street parking and loading areas can be provided. STANDARD MET.

4. That adequate utilities, ingress/egress to the site, access roads, drainage and other such necessary facilities have been or will be provided. Adequate utilities, ingress/egress to the site from S. Woodlawn Road, access roads, drainage and other such necessary facilities have been or will be provided. STANDARD MET.
5. That the proposed use can be operated in a manner that is not detrimental to the permitted developments and uses in the zoning district; can be developed and operated in a manner that is visually compatible with the permitted uses in the surrounding area; and is deemed essential or desirable to preserve and promote the public health, safety and general welfare of Ogle County. The proposed use is in an isolated area, is compatible with agricultural uses in the vicinity, and is deemed essential and desirable for Ogle County. STANDARD MET.

6. That the proposed special use complies with all provisions of the applicable district regulations. The proposed special use appears to comply with all provisions of the AG-1 district regulations. STANDARD MET.

RECOMMENDATION: After considering all the evidence and testimony presented, this Board finds that the application meets all the standards as found in Section 6-9-8C of the Ogle County Amendatory Zoning Ordinance.

Therefore, the Zoning Board of Appeals hereby recommends that a Special Use Permit in the AG-1 Agricultural District be granted to allow a contractor shop for a tree service (tree trimming & removal) subject to the following conditions:

1. All proposals and representations made by the applicant and/or their representative shall be conditions of the Special Use Permit.
2. Manual fire extinguishing equipment of appropriate classification and in sufficient number and location shall be provided for the safety of those utilizing the dwelling. For reference see NFPA 10 - Standards for the Installation of Portable Fire Extinguishers.
3. All combustibles or flammable liquids shall be stored in approved containers. No combustible storage shall occur in or under stairways.
4. All hallways and stairways shall be adequately lighted.
5. A complete floor plan of the establishment shall be submitted to the local fire protection district.
6. Smoke detectors and carbon monoxide (CO) detectors shall be provided pursuant to the Illinois Smoke Detector Act and Illinois Carbon Monoxide Alarm Detector Act.
