SITE INFORMATION: See Staff Report (attached herewith).

ANALYSIS OF SIX STANDARDS: After considering all the evidence and testimony presented at the public hearing, this Board makes the following analysis of the six standards listed in Section 16-9-8C (Standards for Special Use Permits) of the Ogle County Amendatory Zoning Ordinance that must all be found in the affirmative prior to recommending granting of the petition.

1. That the proposed special use will not be unreasonably detrimental to the value of other property in the neighborhood in which it is to be located or the public health, safety, morals, comfort or general welfare at large. The site is isolated, is in mature tree cover, and is well buffered by distance and topography from other residential uses in the vicinity. STANDARD MET.

2. That the location and size of the special use, the nature and intensity of the operation involved in or conducted in connection with it, and the location of the site with respect to streets giving access to it are such that the special use will not dominate the immediate neighborhood so as to prevent development and use of neighboring property in accordance with the applicable zoning district regulations. In determining whether the special use will so dominate the immediate neighborhood, consideration shall be given to:
   a. The location, nature and height of building, structures, walls and fences on the site; and,
   b. The nature and extent of proposed landscaping and screening on the proposed site.

The existing site conditions will remain unchanged, and the dwelling to be utilized is isolated and on a site that is in mature tree cover. STANDARD MET.

3. That off-street parking and loading areas will be provided in accordance with the standards set forth in these regulations. The site is large enough so that adequate off-street parking and loading areas can be provided. STANDARD MET.
4. That adequate utilities, ingress/egress to the site, access roads, drainage and other such necessary facilities have been or will be provided. Adequate utilities, ingress/egress to the site from W. Hay Road, access roads, drainage and other such necessary facilities have been or will be provided. STANDARD MET.

5. That the proposed use can be operated in a manner that is not detrimental to the permitted developments and uses in the zoning district; can be developed and operated in a manner that is visually compatible with the permitted uses in the surrounding area; and is deemed essential or desirable to preserve and promote the public health, safety and general welfare of Ogle County. The proposed use is in an isolated area, is compatible with other recreational properties and natural areas in the vicinity, and is deemed essential and desirable for Ogle County. STANDARD MET.

6. That the proposed special use complies with all provisions of the applicable district regulations. The proposed special use appears to comply with all provisions of the AG-1 district regulations. STANDARD MET.

RECOMMENDATION: After considering all the evidence and testimony presented, this Board finds that the application meets all the standards as found in Section 6-9-8C of the Ogle County Amendatory Zoning Ordinance.

Therefore, the Zoning Board of Appeals hereby recommends that a Special Use Permit in the AG-1 Agricultural District be granted to allow a boarding house SUBJECT TO THE FOLLOWING CONDITIONS:

1. All proposals and representations made by the applicant and/or representative shall be conditions of the Special Use Permit.
2. Manual fire extinguishing equipment of appropriate classification and in sufficient number and location shall be provided for the safety of those utilizing the dwelling. For reference see NFPA 10 - Standards for the Installation of Portable Fire Extinguishers.
3. All combustibles or flammable liquids shall be stored in approved containers. No combustible storage shall occur in or under stairways.
4. All hallways and stairways shall be adequately lighted.
5. A complete floor plan of the establishment shall be submitted to the local fire protection district.
