

OGLE COUNTY ZONING INSPECTION PROCEDURES FOR SWIMMING POOLS

To schedule an inspection, please have your Zoning Certificate number available and contact the Ogle County Planning & Zoning Department at (815) 732-1190 at least one day (24 hours) in advance.

It shall be the responsibility of the applicant to contact the Ogle County Planning & Zoning Department for Zoning Ordinance compliance inspections as follows:

- 1) Stakeout: After the Zoning Certificate has been issued and when the project has been clearly marked (with stakes, paint or other suitable method) in the approved location. Property lines and survey pins must also be clearly indicated. It is the responsibility of the applicant to locate property lines and survey pins. If required, the location of the applicable components of the septic system (i.e. septic tank, septic field/drain field, etc.) shall also be marked with paint, flags or other suitable method.
- 2a) Intermediate for above-ground pool: after the pool location has been leveled and prior to erecting the pool structure.
- 2b) Intermediate for in-ground pool: after the hole has been excavated and prior to permanent placing of materials.
- 3) Occupancy Certificate: issued upon completion of project. All swimming pool barrier requirements must be met in order for an Occupancy Certificate to be issued!
